

Elavon

Safe

You run your business,
we keep it secure

elavon.co.uk | elavon.ie

Many UK businesses believe a cyberattack won't happen to them with almost half failing to protect their payment systems from hackers with the right security procedures*. Unfortunately, they are most probably wrong.

As a business owner you'll appreciate the peace of mind that comes with Secured by Elavon and knowing that you are doing all you can to take payments securely.

Secured by Elavon represents our range of market leading fraud prevention products and services, all designed to keep your customers and your business safe.

Introducing PCI compliance

Businesses have a responsibility to keep their customer information safe and this is achieved by following the Payment Card Industry Data Security Standard (PCI DSS).

As a business taking less than 1,000,000 card transactions per year, you are required to self-certify your business's PCI DSS compliance. We are here to help make sure this happens, guiding you through your PCI journey with the best Secured by Elavon services to suit your needs.

With Secured by Elavon, you'll also benefit from our PCI Waiver Programme on all Secured by Elavon products. In the event your business did experience a breach, and depending on your level of PCI compliance, liability for any fines may be waived.

Achieving PCI compliance is both essential and beneficial to your business. It gives you peace of mind that you are protecting your business revenue and reputation from any fraud incidents. for each and every payment.

 **Am I really a target for hackers?**

61%
of small businesses experienced cyber attack in 2017.

Secured by Elavon

We are here to help you achieve PCI DSS compliance, and maintain it. Secured by Elavon offers a choice of three products to help you achieve PCI certification, depending on your preferred level of control and responsibility:

Secured Encrypt Encryption and compliance managed by Elavon

As soon as your customer inserts their card into the terminal, their card data becomes encrypted, rendering it unintelligible to potential fraudsters. What's more, because Secured Encrypt is so robust, your self-assessment questionnaire is much shorter too, saving you time and money.

Secured Pro Compliance managed by Elavon

Your business keeps you busy enough so you might prefer to save time with Secured Pro and let an Elavon compliance manager organise your PCI compliance for you.

Working together to successfully complete all actions, you won't have to worry about certification expiring or your fraud processes not being up to scratch. We'll also run system security scans to find any potential risks.

Secured PCI Compliance managed by you

This is our entry level security product that enables you to manage your PCI compliance for yourself through the Secured by Elavon portal at elavonsecuritymanager.com. Registration and login details are emailed to you on joining, ready for you to complete a simple online self-assessment questionnaire.

Feature	Secured PCI	Secured Pro	Secured Encrypt
Payment Method	All	Online & over the phone	Face to face
Online PCI certification portal	●	●	●
Reminder email at certification renewal	●	●	●
PCI Waiver Programme in case of card data breach	●	●	●
Proactively managed by Elavon security experts		●	●
Remote installation of security tools		●	●
Security scans		●	●
Cardholder data encryption from the minute card enters terminal			●
Reduced PCI DSS scope			●
Reduced self-assessment questionnaire			●
